Boral Timber Flooring

THE NATURAL SELECTION

messmate

messmate

Rich in detail, warm in colour

Messmate is a well-known hardwood species that has been used in construction for decades but is now in high demand for decorative applications, particularly flooring. It varies in colour from pale browns through to light yellows with subtle hints of peach. It is a species that is rich in detail with an even texture and prominent growth rings.

Janka (hardness) rating 7.1

stringybark

stringybark

A striking blend of highland species

Stringybark is a blend of a number of eucalyptus varieties native to various areas of New South Wales, bringing warmth to interior colour schemes. The texture of Stringybark is moderately fine and even with a straight grain. It is generally a light coloured blend ranging from pale yellow through to soft golden hues.

new england oak

new england oak

Choose the mellow tones of another great Australian

Bring the unique beauty of the New England region of New South Wales to the flooring in your home. From this area comes New England Oak, a hardwood timber species that embodies the subtle, natural visual aesthetic of this classic Australian landscape. New England Oak offers tonal variations from soft yellows and pinks through to pinkish browns. The texture is medium and even, with a variable grain and prominent growth rings.

australian beech

australian beech

Have your own secluded Aussie beech

Australian Beech is a beautiful combination of highland timbers, carefully selected to create a unique colour in hardwood flooring that ranges from pale brown and golden hues to a light cream with a slightly pink tint. These tonal variations found in Australian Beech are one of its sought-after features.

flooded gum

flooded gum

(rose gum)

Luxurious, rich and beautiful

Flooded Gum is a fast-growing species found on the New South Wales and Queensland coasts and is highly prized for its unique, subtle rose tones that vary from the palest pink through to soft reds. Flooded Gum is ideal for luxurious domestic applications that require a rich but gentle aesthetic. It has a straight grain, an even texture and the occasional, natural scribe pattern.
